EXAMINER'S COMMENT

Applicant's election without traverse of Group I (claims 1-21) in the reply filed on 7/27/2006 is acknowledged.

Claims 22-32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/27/2006.

This application is in condition for allowance except for the presence of claims 22-32 directed to an invention non-elected without traverse. Accordingly, claims 22-32 been cancelled.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Cancel claims 22-32.

All claims pending thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance is provided in the paragraphs, which follow below.

REASONS FOR ALLOWANCE

Claims 1-21 are allowed.

The instant application is deemed to be directed to a nonobvious improvement over the inventions of Page et al (U.S. 6,078,316) and Noorbakhsh (U.S. 5,699,498), as being representative examples in the art to which the instant invention pertains. In particular, said improvement provides a strobe line configuration, which reduces the load on the strobe lines and reduces the effect of shorts.

More specifically, independent claim 1 is drawn to an electronic circuit comprising elements arranged in rows and columns and a strobe line electrically coupled to ones of said circuit elements to shift data as claimed, specifically comprising a strobe buffer connected between said strobe line and at least two of said circuit elements within a set to buffer the strobe signal on the strobe line and provide a buffered strobe signal to said at least two of said elements (Claim 1, lines 8-10).

The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

OTHER REMARKS/INFORMATION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Choi whose telephone number is (571) 272-2324. The examiner can normally be reached on Monday-Friday from about 9:00 am to 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky Mack can be reached on (571) 272-2333. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
